

Public Hearing

Arbor Hills Neighborhood Supplemental Fire Flow Supply project

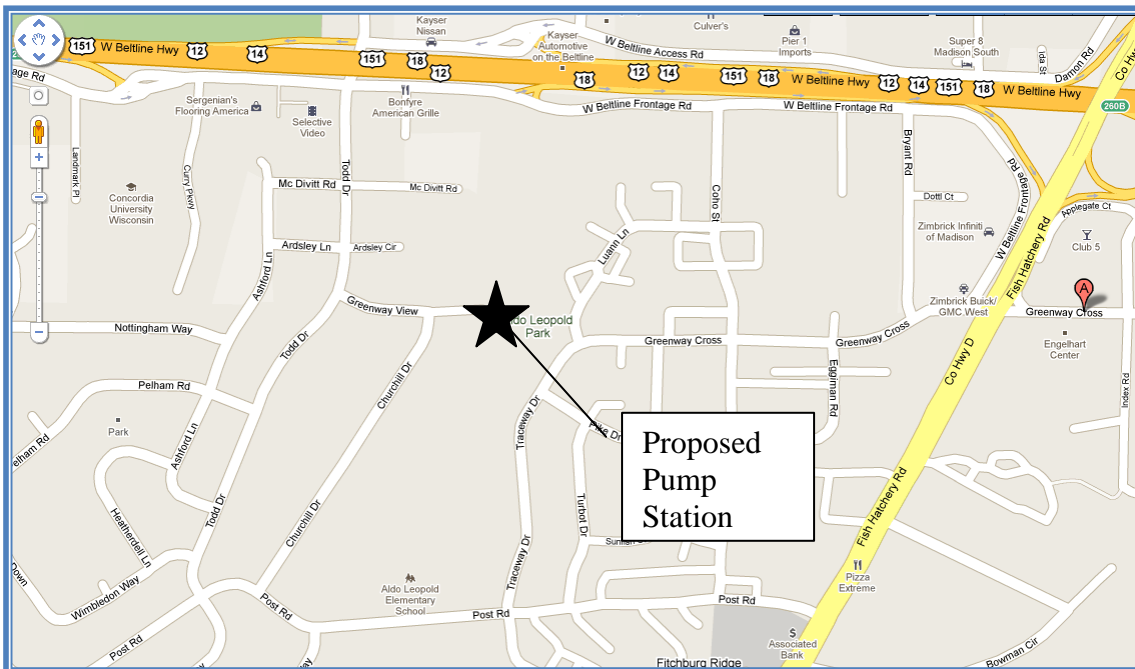

Tuesday, January 25, 2011 @ 4:30 p.m.
Water Utility Conference Room
119 E. Olin Avenue, Madison

Madison Water Utility will present the recommended exterior architectural details for the **Arbor Hills Water Pumping Station** at a public hearing before the Water Utility Board on Tuesday January 25, 2011. Working closely with a citizen panel and through input received at a public meeting with the neighborhood, the utility has evaluated various exterior architectural details and treatments for the building and is making a recommendation. An artist rendering of the proposed building is attached for your information and use. Full project description can be found at www.madisonwater.org, "Arbor Hills Supplemental Fire Flow Supply"

Notice of Public Hearing: All citizens are invited to participate in a public hearing before the Water Utility Board to consider the acceptance of the exterior architectural treatment recommendation for the proposed pump station. The Water Utility Board desires to solicit public input and comment on said project. Written comments and objections regarding this project will be accepted up to the start of the public hearing. Comments can either be submitted via email to water@madisonwater.org or by US mail to MADISON WATER UTILITY, 119 E. Olin Avenue, Madison, WI 53713.

Tom Heikkinen; Water Utility General Manager
