Letter Of Intent. 2403 East Springs Drive

We are requesting a demolition permit only. This is to demolish one commercial building, formerly known as Pawn America. We will disconnect all utilities to the building and remove the commercial building from the bottom of the footings to the parapert cap. We have already submitted our recycling plan to the engineering department.

We will also remove all site improvements left behind from Pawn America including parking lot, light poles, islands, curb & gutter. The site will be left in a graded shape to keep the site safe and prevent run off.
