

When complete, this Little Free Library would be mounted on a 6x6 post, facing north toward the paved sidewalk that provides access to the natural play area in Sunset Park, roughly midway between the main path and the edge of the play area. The post will be set to a depth of 4 feet and the bottom of the little library will be about 26"-30" above the ground. The library is 38" tall, resulting in a total height of 64"-68".
