## **GFLU Map amendment applications from the public**

In addition to staff administrative updates drafted as a result of previously adopted plans, the public had the opportunity to propose GFLU Map amendments. Those amendment applications [are summarized here](#) and geographically specific amendments are mapped on the [interactive 2023 Draft GFLU Map](#). At their September 7 and September 18 meetings, Plan Commission received early public comment and provided guidance to staff about the GFLU amendments submitted by the public. The Revised Draft of the 2023 GFLU Map will be formally reviewed by the Plan Commission at a public hearing on November 13, 2023, followed by review by Common Council.

## **Summary of other revisions to the Plan document**

In addition to the summary list of proposed revisions below, details about each revision can also be found within this [interactive markup of the Comprehensive Plan](#).

Note: items that have been revised since Plan Commission reviewed them at their September 7 and September 18 meetings are **highlighted in yellow**.

- A. Update cover of Plan to include the date amended in 2023.
- B. Include a [cover memo](#) after the cover page to acknowledge implementation progress relating to major policies/initiatives since the Comprehensive Plan was adopted in 2018. The cover memo will also briefly explain the Plan adoption and amendment history.
- C. Update Plan text and diagrams throughout the document to reflect the addition of the new seventh Element, Health and Safety, which was [adopted by Common Council](#) in 2022.
