RE: Exterior Renovation and Repair

To Whom It May Concern:

After our initial meeting we decided to go with your recommendation to add brick and remove some of the EFIS elements. With the revision you received we made the following changes.

1. Removal of cornice on parapet
2. Adding of brick band above windows and at top of parapet
3. Adding of 4 brick columns between the forward facing windows

Thank you in advance for your consideration of this application. Please let me know if there is any additional information that can assist in your decision.

Respectfully Submitted,

GENERAL ENGINEERING COMPANY
