

Central District:

#10 Fountain - 21 + license

I have met with Harold on premise and talked through recent concerns with large late night crowds at his establishment. He has indicated that these issues were an anomaly and not reflective of his vision of where he wants the Fountain to be.

Harold described some upcoming plans for programming in the back dining room area with the focus being on the piano and organ which are present.

Central district Supports the 21+ entertainment license for this establishment.
