Subject: RE: Parking on Old Middleton rd

Hi Mark,

Thank you for attending the Transportation Commission meeting last Wednesday and providing your input. To this email, I am including Jeremy Nash (Traffic Engineer for this project), Renee Callaway (Ped and Bike Coordinator) and Ann Kovich (Transportation Commission Chair) so they are aware of your comments.

Please note the following important dates regarding this project:

1. 12/1/2021: Second Public Information Meeting (held virtually)
 1. Registration - www.cityofmadison.com/OldMiddletonCraig
2. 12/15/2021: Board of Public Works Public Hearing (held virtually)
3. 1/4/2022: Common Council Hearing (held virtually)

You will have an opportunity to provide feedback and express your concerns regarding on-street parking removal at these three meetings. If you have any issues with the registration process, please let me know and I'll help you.

Thank you,

Fadi El Musa, P.E.

Good Morning Fadi,

After listening to all the discussions last night about the project that is going on Old Middleton rd, But really only about the parking on the 5300 block. Just talking this morning with a couple of people in the area. They had no Idea on when is going on with the project and want me to follow up with them after the 1st and 8th meetings. I would also like to talk at each of those meetings with our concerns. I will be talking to just the business owners and building owners because I feel it is more a business issue not a residential issue. Also I don't feel it will prolong the project because it's just the paint on the road surface that would change anything underground water/sewer/drainage type stuff. Also have a call into the local alder person for my area and if anyone on the meeting would like to talk to me have them contact me at Crestwood Auto Clinic (608)231-1744 not trying to be a pain in the a\$\$ but I feel the parking is important to keep local business afloat and there are many other routes that could be used for bike traffic that are already in place. Also feel free to forward this email to all the folks that were at last night's meeting and they are welcome to come down to the area and see 1st hand the struggles we face on a day to day. Just keep in mind the businesses in this area have been in the same location since the mid 60's.

Thanks Mark

Hi Mark,

Thank you for contacting me regarding the Old Middleton Rd resurfacing project. Please note that the proposed improvements do not provide additional on-street parking spaces. We apologize for the inconvenience this might bring to your business. Please note that such design is based on current policy and design guidelines.

I encourage you to attend the Transportation Commission meeting that will take place tomorrow at 5:00 p.m. This project will be discussed and presented to such commission. Below is the link to register for the meeting. You will have a chance to provide the commission members your feedback before they make a determination.

Link to register: <https://www.cityofmadison.com/city-hall/committees/transportation-commission/11-17-2021>

Let me know if you have additional comments or questions.

Thank you,

Fadi El Musa, P.E.

Subject: Parking on Old Middleton rd

Caution: This email was sent from an external source. Avoid unknown links and attachments.

After attending the Zoom meeting today I see the Parking along the 5300 block of Old Middleton Rd is being eliminated . According to your research there are 13 cars parked there on any given day. Are you going to provide parking for those vehicles when you eliminate those parking spaces? I as a business owner in the area need those spaces for my customers to come shop and do business with me and the other stores around me that may have limited parking.

Thanks for your time, Mark
