

# FAMILY ENHANCEMENT

Strong Parents  Strong Families

November 30, 2010

To Community Services Committee,

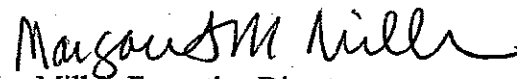

As of January 1, 2011, Family Enhancement and the Respite Center will become Center For Families as part of a merger with The Exchange Center for the Prevention of Child Abuse and Family Centers, Inc.

Center For Families will be responsible for delivering the same high quality services currently provided by both Family Enhancement and the Respite Center. We are asking the Community Services Committee to transfer funding of both the Parents Place program currently delivered by Family Enhancement and Respite Care services currently provided by the Respite Center, to Center For Families and that you contract with the Center For Families accordingly.

Thank you for considering this request.

Sincerely,

  
Mike Kenitz, Executive Director  
Family Enhancement Program, Inc.

  
Meg Miller, Executive Director  
The Respite Care Center, Inc.
