I appreciate the building at 141 S Butler St being repurposed for housing. I can't be at the meeting and have the following questions.

I am concerned about the vulnerable population that will be housed there.

How will the building be accessible to people;le with disabilities?

How will there be exits from all floors in case of a fire?

Is the electrical up to code?

There is not much room for recreation.

What can the community do to support this?

Does this organization have the capacity to manage this?

Are there program and safety protocols?

Is There a training plan?

Sincerely
