---

Dear Ms. Scanlon,

I am appalled to hear of the tentative plans to demolish five buildings on the 100 block of State Street including a building that dates back to 1867. I feel that State Street would certainly not be my street anymore with such a horrible idea. I do support renovation of these buildings and preservation but certainly not to gentrify State Street for the sake of The Overture Centre.

I have written to Mayor Paul Soglin and I will also contact my Alderperson. If there is anything else I can do to stop the destruction of five buildings from demolition, do let me know. I thank you.

Regards,

Dennis Lee Clevon
