# SUSTAIN DANE — 2024

# Local Case Studies

"I feel inspired to respond to climate challenges holistically. Thank you Sustain Dane!"

– Feb Sustainable Breakfast Participant

"Sustain Dane has provided a community for passionate changemakers to inspire and empower one another to take on sustainable actions within their own organizations and daily life. Appreciate the work and look forward to being a more active member to extend my reach and impact!"

–Accelerate Sustainability Workshopper

"As a first-time attendee to the Sustain Dane Summit, it's very inspiring to see so many local companies trying to make a difference. It gives me hope that there's so many people and businesses in our community that are actively doing their part to create a more sustainable future"

–Summit Attendee

"[The food scraps program] is important to me because climate change is terrifying. Being able to compost empowers me. It encourages me to think about other ways I can reduce climate impact such as biking instead of driving. I put my compost in my freezer so even if I can't make it to a farmers' market, I can bring a larger amount of it to the next one. I think all cities should have compost."

– Food Scrap Drop-off participant

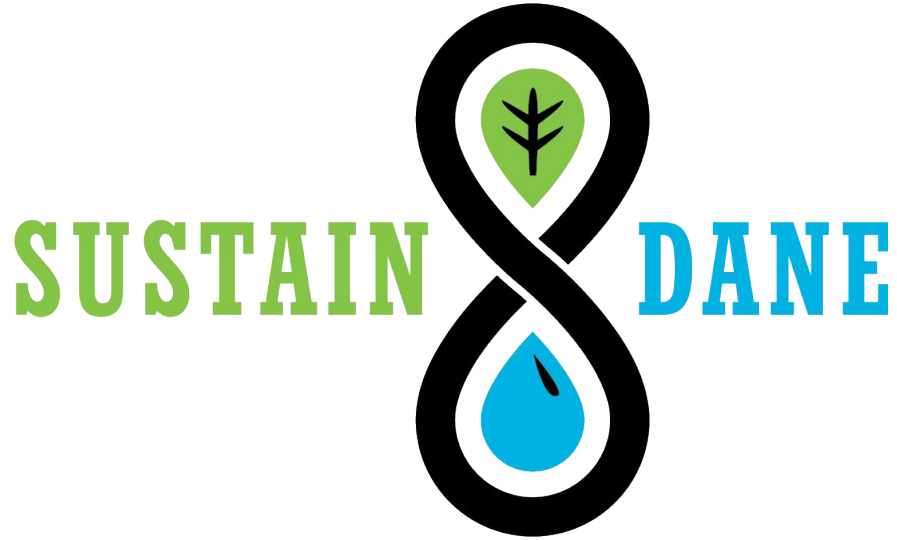

Change happens when

**inspired**

people take action
