2. [87242](#) 3357-3375 E Washington Avenue + 922-930 N Fair Oaks Avenue - New Mixed-Use Building Located in Urban Design District (UDD) 5. (District 12)
The motion was made with the following findings and conditions:

The townhome building design shall be refined to reflect a better distribution of the proportions between the windows, sills and masonry base with the goal of minimizing the appearance of the parapet wall or space above the second-floor window as much as possible.
The applicant shall provide a section of the townhome development.
The building design along N Fair Oaks Avenue shall be revised to incorporate design elements or design techniques to reduce the mass and scale and soften the North Fair Oaks elevation, including but not limited to incorporating stepbacks, articulation in the base, human scale architectural elements, landscape, yard spaces/fences, etc.
Explore changing the white accent material to be more consistent with other material colors on the

building.

Further explore the connectivity between the townhomes and the residential building, including minimizing parking, increasing landscape, etc.

Adding a protective element at the corner for the patio area, including a seat wall and/or landscape.
