

### **DAMA - Madison Youth Arts Center Community Mural Project**

**Project Overview:** DAMA was commissioned to design and paint a community mural for the new Madison Youth Arts Center (MYA). The project consists of three sections each measuring 27feet high by 20 feet across. The mural will be painted by DAMA artists alongside youth and community members with the final mural professionally finished by DAMA artists. Each section will be painted on 20 alumicore panels for a total of 60 panels to be installed by the MYA team over the course of 2-3 years.

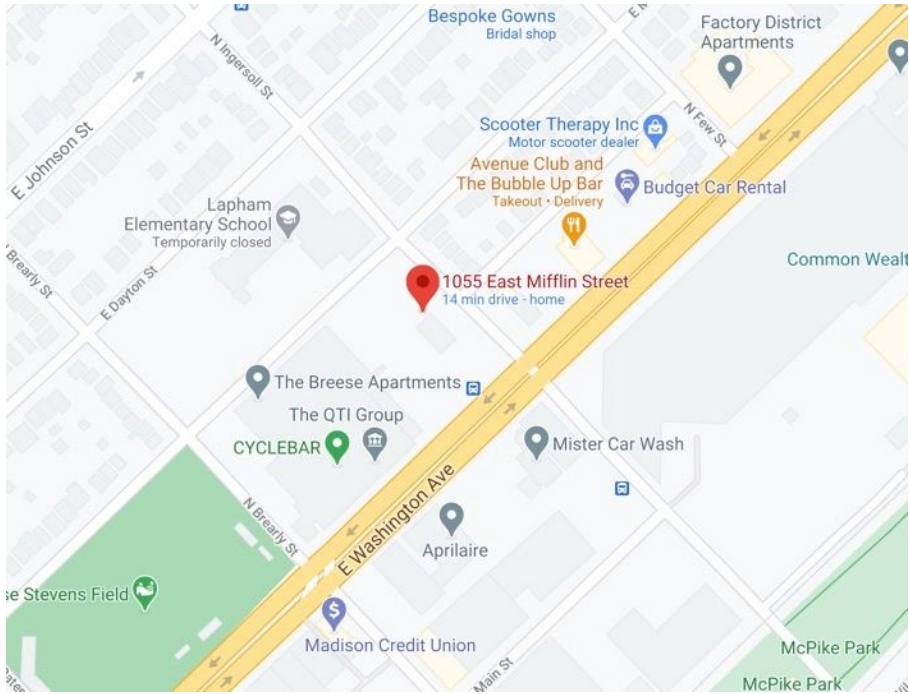

**Design Process:** DAMA has worked closely with the MYA leadership team and in conjunction with Art and Sons design firm to create three designs. These designs will be voted on by community members and youth through MYA programming and MMSD. The chosen design will receive additional design elements added through youth engagement. These elements will include patterning and color fill treatment options. The basic structure of the design will remain, it will only be added to through fill with color/pattern as it is finalized.

**Painting:** DAMA artists will engage MMSD and MYA youth in painting the mural in stages beginning in November 2020. The mural will be completed and installed in sections.

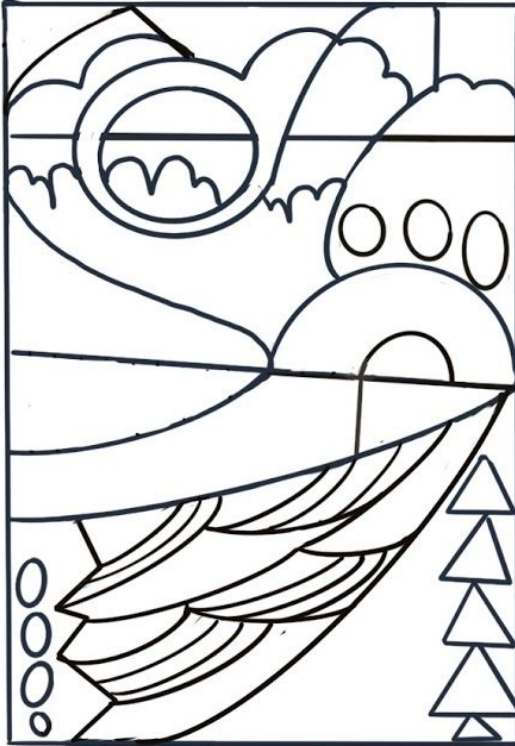

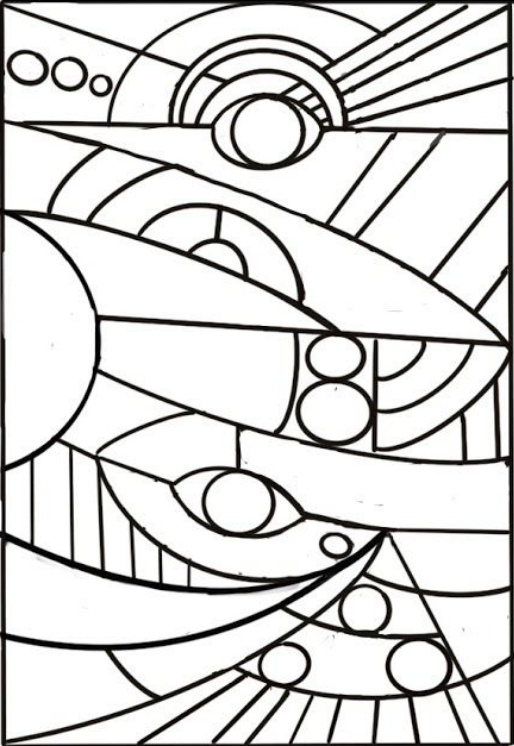

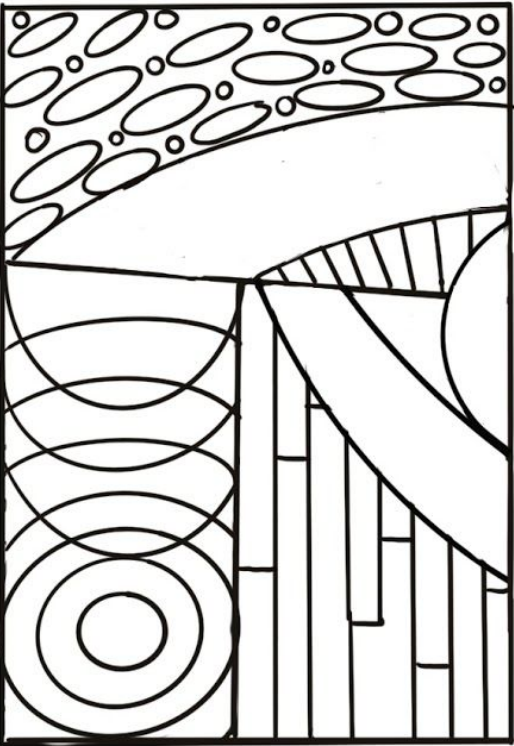

**Timeline/approvals:** We hope to receive preliminary approval from MAC for these three designs so that we can move forward with the community voting process over the next few weeks. DAMA plans to begin gathering student design input by the end of October and begin painting in November with installation of section one by the end of December. Once we have student design input and a finalized design that is ready to be painted we can present that design again to MAC for final approval.

MYA leadership and building owners are in contact with the Tenney/Lapham neighborhood association and local alderperson and they have also pursued all other necessary city approvals. We will be sharing the final design with all necessary agencies and associations and community members as we reach that point.

**Location: Madison Youth Arts Center, 1055 E. Mifflin St**  
Mural will fill 3 large spaces on Ingersoll St.

**Design Option #1 - Art Forms (Abstractions of Music, Visual Art and Performance Art)**

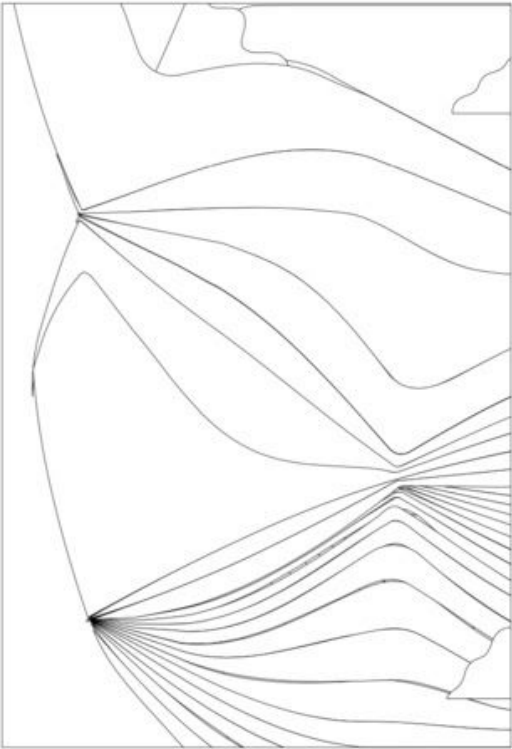

**Design Option #2 - The Youthful Mind is a Prism**

**Design Option #3 - Metamorphosis**
