Madison, WI 53504

City of Madison
Mayor Office
Madison, WI

To Whom It May Concern:

Based on Chapter 39 and Affirmative Action, we the people of Madison, WI do declare that our human rights and civil rights be provided amidst the social services agencies, immediately.

At the Salvation Army (East Washington), people have been mistreated as they seek shelter and assistance and treated inhumanely. The places by which the DIS-Community (disadvantaged, disempowered and disenfranchised) are sheltered, are finding these places to have black mold, extreme cold (very drafty) and ceilings coming apart--people are shooting up, doing drugs, stealing their stuff, disabled son with epilepsy was placed in Room 1 (Room 1 very cold), then was moved to Room 3 (warmer than Room 1) --- then when others complained there was special treatment taking place, they were moved to Room 4 with a blinking lights that can trigger a seizure --- then the epileptic son was forced back to Room 1 with no heat) --- staff said, "we are keeping this room cold to keep the germs down."

Based on this mistreatment and inhumane environment, people have elected to remain in the cold. This is how serious this situation is.

We are invoking the Bill of Rights immediately take place in this shelter.
