**Subject:** Olbrich Park Path Alignment

Caution: This email was sent from an external source. Avoid unknown links and attachments.

Regarding the three options for the Olbrich Park path, I think Option 3 is the best. It provides a fairly direct route for bicyclists and does not ruin the current pedestrian path along the lake. Using the same reasoning, Option 1 is not acceptable because it requires slow-moving peds to share the path along the lake with fast-moving bicycles. It's both a safety and an aesthetic issue. Thank you.
