GATES AND BROVI

I strongly support this license. I held a neighborhood meeting about this application. The neighbors in attendance actually applauded the owners for bringing the restaurant to the neighborhood. I have had many emails in support and only a few opposed.

EDO

I will second Capt Balles's recommendation. The owners of this establishment have not contacted me. However, the restaurant has been in operation for some time. The amount of alcohol sold compared to food is small. If the police have no record of bad behavior, I will not object to the license.

LAKESIDE ST COFFEE HOUSE

I support this license. The new owner of this ongoing establishment called me. I sent an email to the neighborhood. The responses I got were all in support.

7-ELEVEN

Again, I will second Capt Balles's recommendation. The owners have not contacted me. Presumably, this application means that the Open Pantry has been sold to 7-Eleven. I haven't heard of any problems with the Open Pantry and the neighborhood supported their license renewal last year. If the police have no record of bad behavior, I will not object to the license.
