Marsha,

Could you include this comment to the Mineral Point – Yellowstone Traffic Signal Assessment item as well. You can leave out the part about the no parking signs, Mark Winter is handling that.

Thank you,  
Jerry

**Subject:** Proposed Traffic Light

When we spoke last week, I did not see the need for the traffic light at Mineral Point Rd and S Yellowstone Dr., and was wondering whether signage might be a less intrusive and less expensive alternative.

Since then I have not spoken with any Marbella owners who are in favor of it. We have lights on Mineral Point Road at Island Drive as well as at Grand Canyon Dr with good sightlines.

Mark Clear, after saying that "safety is first," referred to the intersection as a "dangerous crosswalk."

Frankly, if it is a crosswalk, couldn't drivers be alerted with a pedestrian crossing sign?

That Burkhalter Travel requested the installation seems odd and effectively imposes fees on the immediate neighborhood. I hope that a neighborly discussion will occur tomorrow.

Thank you again for your time.  
Carol Berlin

PS Was there any follow-up on my request for "no parking here to corner signs" on S Yellowstone?
