

BPW Meeting June 19, 2013:

Review of Projects by Engineering Environmental Staff for Impacts to Water Resources

4. East Johnson Street Reconstruction

As this is a WDOT bid project, no formal WDNR permit is required. However, an erosion control plan will be created and implemented.

22. North Shore Dr & Bedford Street Storm Box Replacement

This project will include land disturbance over 4000 square feet, which will require a City Engineering Erosion Control permit. The storm box replacement requires a Chapter 30 permit from the WDNR; this permit has been received.

(Eric Dundee, City Engineering)
