Subject: Coffee Roasting at Barriques, 961 S Park St

I live in the Bay-Creek area of Madison, but three blocks away from Barriques. Thus my voice should not be heard as loudly as those who live closer and have experienced some negative aromas due to the coffee roasting.

However I wanted to write and state the obvious--lest nobody else does--which is that a lot of us have enjoyed many hours at the Barriques coffee shop on Park St. They are very professional in their approach; their employees are gracious and helpful, and they sell excellent products, both drinks and foods. Barriques has added positively to the quality of life of many of us in Bay-Creek.

I hope that the afterburner device achieves the desired result so that Barriques can get their work done in an efficient manner, without causing discomfort to our neighbors who live closer by.

Respectfully,

Douglas Alexander
