

## *Replacing Route 7 with Route 3 on Weekends and Holidays*

Route 7 has only 45 minutes to make it from the East Transfer Point to the West Transfer Point, and vice-versa. On-time performance is poor and passengers constantly miss transfers. Route 3's running time between transfer points is one hour. On time performance would improve dramatically.

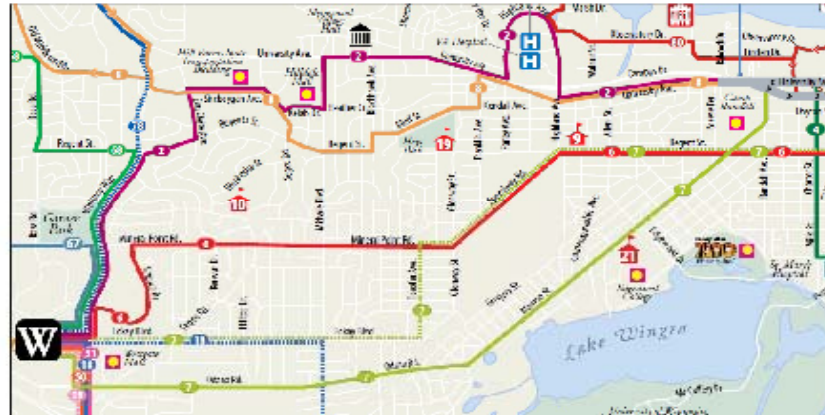

On weekends and holidays, Route 7 does not serve Atwood Ave. between Fair Oaks Ave. and Walter St., leaving Olbrich Gardens without transit service.

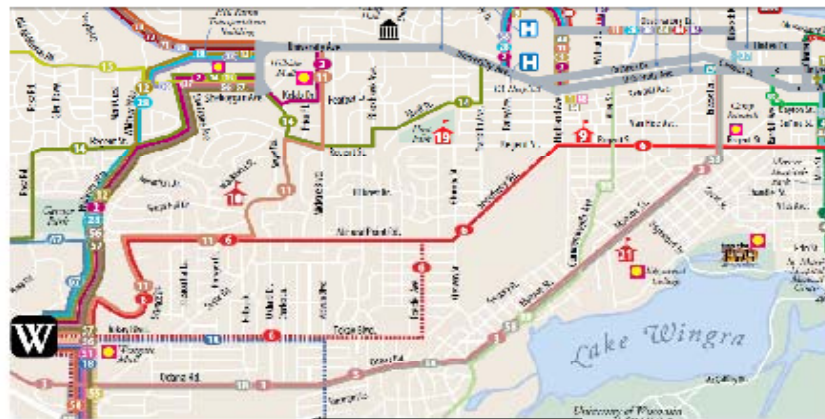

Route 3 would provide service to this portion of Atwood Ave & Olbrich Gardens on weekdays and holidays

## Replacing Route 7 with Route 3 on Weekends and Holidays (West Side)

On weekends and holidays, Route 7 covers the Toepfer/Tokay “via” that is operated by route 6 on weekdays. The other “via” of Route 7 operates the Monroe St. and Odana Rd. aspect of the weekday Route 3—but at hourly frequencies, compared to half-hourly service available from Route 3 on weekdays.

Weekday Service
