3. APPLICANT

Applicant's Name: Tracey Powers Company: Christensen Construction

Address: 1117D Jonathan Dr, Madison, WI 53713
Street City State Zip

Telephone: (608) 514-2550 Email: tracey@christensenconstruction.net

Property Owner *(if not applicant)*: Debra Shapiro

Address: 2122 Kendall Ave, Madison, WI 53726
Street City State Zip

Property Owner's Signature: Date: March 1, 2023

NOTICE REGARDING LOBBYING ORDINANCE: If you are seeking approval of a development that has over 40,000 square feet of non-residential space, or a residential development of over 10 dwelling units, or if you are seeking assistance from the City with a value of \$10,000 (including grants, loans, TIF or similar assistance), then you likely are subject to Madison's lobbying ordinance (Sec. 2.40, MGO). You are required to register and report your lobbying. Please consult the City Clerk's Office for more information. Failure to comply with the lobbying ordinance may result in fines.

4. APPLICATION SUBMISSION REQUIREMENTS *(see checklist on reverse)*

All applications must be filed by 12:00pm on the submission date with the Preservation Planner. Applications submitted after the submission date or incomplete applications will be postponed to the next scheduled filing time. Submission deadlines can be viewed here: https://www.cityofmadison.com/dpced/planning/documents/LC_Meeting_Schedule_Dates.pdf

APPLICATION SUBMISSION REQUIREMENTS CHECKLIST:

In order to be considered complete, every application submission shall include at least the following information unless otherwise waived by the Preservation Planner. **All application materials should be submitted electronically to landmarkscommission@cityofmadison.com.** Please note that an individual email cannot exceed 20 MB.

- Landmarks Commission Application w/signature of the property owner.
- Narrative Description/Letter of Intent addressed to the Landmarks Commission, describing the location of the property and the scope of the proposed project.
 - Photographs of existing conditions;
 - Photographs of existing context;
 - Photographs of comparable historic resources within 200 feet of subject property;
 - Manufacturer's product information showing dimensions and materials.
- Architectural drawings reduced to 11" x 17" or smaller pages which may include:
 - Dimensioned site plans showing siting of structures, grading, landscaping, pedestrian and vehicular access, lighting, mechanicals, signage, and other features;
 - Elevations of all sides showing exterior features and finishes, subsurface construction, floor and roof;
 - Floor Plan views of levels and roof;
 - For proposals of more than two (2) commercial or residential or combination thereof units, a minimum of two (2) accurate street-view normal perspectives shown from a viewpoint of no more than five (5) feet above existing grade.
- Any other information requested by the Preservation Planner to convey the aspects of the project which may include:
 - Perspective drawing
 - Other _____

Landmarks Commission staff will preliminarily review projects related to the construction of additions and/or new construction with Zoning staff in order to determine the completeness of the submission materials. Applicants are encouraged to contact Zoning staff to discuss projects early in the process to ensure the project considered by the Landmarks Commission meets Zoning requirements.

To Whom It May Concern:

This letter accompanies a Landmarks Commission Application for a rear second story screen porch addition project at 2122 Kendall Ave, Madison, WI 53726. There is an existing rear first story addition on concrete frost protected foundation that likely replaced an original rear porch. Prima facie evidence for this is an existing and original second story rear exit. This exit currently serves a roof-top deck over the existing rear addition roof. The main roof is hipped, while there is a two-story projection to the west with a flat roof. The main roof has a front and back hipped third story dormer.

The intent of our project would be to replace the second story deck with a second story screen porch. The porch would match the footprint of the existing first story addition. The roof of the addition would be flat and fascia and soffit would tie into the existing main roof soffit and fascia to match the west projection of the house. Openings for screens would be located on all three exterior walls of the addition. The screen porch would be served by the existing rear second story exit. A window serving a second story bedroom would be in conflict with the addition, and would be eliminated. A new double casement window would be installed in the bedroom to match the existing first story.

The following existing materials are present:

- 1st story 1x6 bevel lap siding above 5/4x6 water table and beneath mid-story 5/4x4 bandboard with drip cap. Siding reveal is 4 ½".
- 2nd story 1x4 bevel lap siding above mid-story bandboard and beneath 5/4x8 frieze with crown moulding at soffit. Siding reveal is 2 ¾".
- 1" x 4 ½" window casings.
- 1" X 5 5/8" window mullions.
- 1 ½" beveled window sills.
- 1x6 T&G soffits.

The following materials would be used in the proposed addition:

- 1x6 cedar bevel lap on new walls to elevation of existing bandboard. Siding reveal to match 4 ½" of existing.
- 5/4x4 cedar bandboard with drip cap at elevation of existing bandboard to match existing.
- 1x4 cedar bevel lap on new walls above bandboard to elevation of existing frieze. Siding reveal to match 2 ¾" of existing.
- 5/4x8 cedar frieze with crown moulding at elevation of existing frieze to match existing.
- 1" x 4 ½" cedar window casings.
- 1" X 5 5/8" cedar window mullions.
- 1 ½" beveled cedar window sills.

- 1x6 T&G cedar soffits.

In preparation for this application, I have noted that few resources remain within 200' of this property that retain their original exterior materials and architecture, as 2122 Kendall Ave does. Most have been resided in aluminum or vinyl, and in fact there is a property whose original exteriors are currently being replaced with cement board siding within 200' of this resource. Given that our proposed project for 2122 Kendall Ave is at the rear, fits the proportions of the existing house, mimics the existing architecture and utilizes similar materials to the original construction, we believe this project will not detract from the historical value of the property or the district.

Thank You,

Tracey Powers
