ADDENDUM B

Applicant: Frank Productions, Inc.

Event: Freakfest

Event Date: 10/27/12

Date Permit Granted: _____

The purpose of this Addendum B is to address the ticketing system and method of allocating costs for the Street Use permit for the above Street Use Permit issued to Event Sponsor/Applicant Frank Productions, Inc.

- (A) City will control access to a larger perimeter (to be determined by City staff, and not part of this permit.) This perimeter will be fenced, gated and controlled by the City for purposes of public safety & crowd control.
- (B) Tickets will be required to enter at the gated entrances. Purpose of selling tickets is for City to control the number of people entering the area and recover some costs of crowd control resulting from the gathering which traditionally takes place on this date. Ticket price will also include entrance fee for Applicant's Street Use permitted event (the music/entertainment venues described on permit).
- (C) Applicant and the City will enter into a written agreement to address all details of ticket sales. It is anticipated that applicant will handle ticket sales prior to and on the date of the event, and the City will take tickets and control entry at the gates. Details to be addressed in the written agreement include, but are not limited to:
 - How, where, and when tickets will be offered for sale
 - Price of tickets
 - Accounting for sales, reporting between applicant and city
 - Method of allocating proceeds from ticket sales between applicant and the City.
- (D) Costs of City Services (Sec. 10.056(7)(c).) The written agreement shall also establish an appropriate method for applicant to reimburse for costs of city services resulting from their permit, which may include an allocation of ticket sales revenue and any other revenue. The agreement should take into account any costs of city services for the street use permit venues that are not paid directly as a standard condition of the permit, as well as the costs of the larger safety perimeter established by the city, and the contributions of both parties to the safety and success of the event.
