They forgot to tell Frank Lloyd Wright there would be penguins

The Monona Terrace Community & Convention Center was adapted from designs by Frank Lloyd Wright. The plywood penguins are by Madison artist Timothy Browning, a former member of the Pail and Shovel Party who helped bring the Statue of Liberty to Lake Mendota. The penguins are one of the projects sponsored by the [Madison Arts Commission's BLINK Temporary Public Art Program Winter Projects 2007-2008](#).
