I strongly oppose reverting traffic controls for ped/bike crosswalks to manual operation. It is an unreasonable and unfair burden to require us to get to a light IN ADVANCE OF IT EVEN CHANGING, in order to register a reservation to be allowed to cross the street in the current light cycle. We do not impose this on cars: why do we do it to peds and bikes????

I thought we had passed Vision Zero? Drivers are already rude and contemptuous enough of peds and bikes in crosswalks: why handicap us further, for god's sake?!?!????
