Subject: Redevelopment of 3414 Monroe
Date: Monday, October 20, 2014 10:10:07 AM

I am strongly opposed to the redevelopment of 3414 Monroe St. It is clear that the current plan will impinge on the character of the Arbor House property, destroying any sense of a natural setting, so important for that business. More importantly, we do not need any more high-density high-rise development in this neighborhood. We have enough high-rise condo/apt buildings now! Too many, in fact. We moved to the neighborhood 21 years ago because we loved the residential charm of the neighborhood. We did not anticipate seeing high-rise buildings within a few blocks in every direction, or we might have chosen not to move here. Furthermore, additional high-density development will only worsen the traffic and parking problems of this neighborhood, which are already burdensome and damaging to the character of the neighborhood. I urge you to vote down this plan for the corner at 3414 Monroe Street.

Respectfully,

Scott Spoolman
