# Petition to Hermina Shared Space

<p><b>Petition summary and background</b></p>	<p>The 2900 block of Hermina Street, between Marquette Street and Starkweather Creek, will be reconstructed in 2015 or 2016. There exists on this block of Hermina a problem of speeding cars. About 20 children younger than 12 years live on this street and more are expected. The high car speeds create an unsafe condition for children and families to fully enjoy the space.</p>
<p><b>Action petitioned for:</b></p>	<p>We, the undersigned, ask the City of Madison to design and construct Hermina Street as a shared space rather than a conventional street. The design should naturally limit motor vehicle speeds so cars and pedestrians can safely interact at walking speeds. City of Madison engineers will retain responsibility for final design of the street, ensuring the street remains accessible for refuse collection and emergency vehicles.</p> <p>Signing this petition does not commit the residents and home owners on Hermina, or the City of Madison, to a specific street design. Rather, it expresses to the City our collective desire for a fresh design that meets the needs of residents for safe enjoyment of our street while preserving necessary vehicular. Should this petition be acceptable, the City of Madison will conduct its own survey of street residents and home owners to gather additional input to a redesign.</p>
