RE: Approval of two (2) one-lot Certified Survey Maps (CSM) to create two lots on land located adjacent to 3385 North Star Road, Town of Cottage Grove, in the City of Madison's Extraterritorial Jurisdiction (Banovetz).

Dear Mr. Adams;

The City of Madison Plan Commission, meeting in regular session on February 25, 2019, **conditionally approved** your Certified Survey Map of property located on North Star Road in the Town of Cottage Grove. The conditions of approval from the reviewing agencies to be satisfied before final City approval and recording of the CSM are:

Please contact Brenda Stanley of the City Engineering Division at 261-9127 if you have questions regarding the following three (3) conditions:

1. A Phase 1 environmental site assessment (Phase 1 ESA), compliant with ASTM E1527-13, is required land dedicated to the public. The applicant shall provide one (1) digital copy to Brynn Bemis (267-1986, bbemis@cityofmadison.com) for review. Staff review of this Phase 1 ESA will determine if a Phase 2 ESA is also required.
2. A navigable stream is located on this parcel. Identify the limits of the stream and centerline of the channel and show on the CSM. This shall be done in conjunction with the WDNR. Applicant shall provide an easement a minimum of 50 feet from each side of the channels of the ordinary high water marks as determined by the WDNR. The easement shall be dedicated to the public for stormwater purposes.
3. A wetland delineation will be required. Show wetlands and all required setbacks on the CSM. Provide a copy of the wetland delineation.

Please contact Jeff Quamme of the City Engineering Division—Mapping Section at 266-4097 if you have questions regarding the following twelve (12) conditions:

4. Both CSMs are showing a North Star Road right of way that deviates from the County Highway Road Book for Cottage Grove, where a three-rod road was laid out centered on the Section Line. Also, the easterly right of way as shown on each survey do not match. Both surveys shall provide the required

labeled overall widths of the right of ways and widths to the exterior boundary line and centerline (add to the map), including widths at any bend points. Also, provide necessary notation on how the right of ways were determined.

5. The Banovetz CSM shall show all record boundary data as required by statute.
6. The Banovetz CSM shall show the East Quarter Corner of Section 28 and an overall quarter line bearing and distance as required by statute.
7. The Banovetz CSM shall remove note 1. A title report has been provided as part of this review.
8. The Skaar CSM shall add a City of Madison Plan Commission approval certificate.
9. Both CSMs bearing systems are on the Dane County Coordinate System. Provide measured coordinate values on the Section Corners.
10. Prior to City Engineering final sign-off by main office for Certified Survey Maps (CSM), the final CSM must be submitted to Engineering Division Surveyor/ Land Records Coordinator for final technical review and approval. This submittal must occur a minimum of two working days prior to final Engineering Division sign-off. Electronic mail submittal of the **final** CSM in PDF form is preferred. Transmit to jrquamme@cityofmadison.com.
11. The applicant shall submit to Jeff Quamme, prior to final Engineering sign-off of the subject plat, one (1) digital CADD drawing and one (1) signed copy of the final plat to the Mapping/GIS Section of the Engineering Division either as hard copy or Adobe PDF format. The digital CADD file shall be submitted in the WisDOT County Coordinate System, Dane County Zone datum in either Auto CAD Version compatible with MicroStation Version V8i, MicroStation Version V8i or older or Universal DXF Formats. The digital CADD file(s) shall contain the minimum of the items stated below, each on a separate layer name/level number. All line work shall be void of gaps and overlaps that would cause any parcel, street or easement to not properly close. All line work orientation and geometrics shall match the dimensioning as labeled on the final recorded plat: right of way lines (public and private); lot lines; lot numbers; lot/plat dimensions; street names, and; easement lines (i.e. street, sanitary, storm (including wetland & floodplain boundaries) water, pedestrian/bike/walkway, or any public and/or private interest easement except local service for Cable TV, gas, electric and fiber optics).

*This transmittal is a separate requirement than the required submittals to Engineering Streets Section for design purposes. The Developer/Surveyor shall submit new updated final plat, electronic data and a written notification to Engineering Mapping for any changes to the plat which occur subsequent to any original submittal of data and prior to final sign off.
