MALL/CONCOURSE FOOD VENDOR STATUS

2015 Licenses Issued to Date: 35

Beginning of the Conversation about Mall/Concourse Electricity

I have been communicating with staff of City Engineering and Traffic Engineering to find out if any changes could be made to the amount of public electricity currently available to Mall/Concourse Food Vendors. Some limited modifications may be possible at some locations on a case by case basis. According to Engineering: "It would take time to determine if this would be possible and chances are that we may not have the conduit space available to run additional wires through our already congested system."
