I had forgot to mention that many of the residents/visitors of these streets are parking on 5700 block of Meadowood Dr., making the street even narrower and more likely to cause damage to these vehicles. Just a little more food for thought.

There is "continuous heavy equipment" vehicles using the 5700 block of Meadowood Dr.
My guess is this is the ONLY route they are using.
Our street will end up being next in line to be redone because of this.
Could there be some alternate routes used?
Options? Kroncke, Monticello Way – which is a much wider street, Thrush to Leland
