Subject: Tentative schedule for next concentration neighborhood planning

Jule, Linda, bill and I discussed the potential next concentration neighborhoods on Friday.

Used the criteria of:

LMI eligible

No recent plan in area

Opportunities as represented in the capital budget or other development plans

Expressed interest on behalf of residents.

We identified these in this order, returning to the north and east sides, then heading south and west:

- a) Emerson Eken
- b) Schenks Atwood Worthington
- c) Tenney Lapham

Jule will prepare a top down flow chart to suggest the process to follow. When prepared we will all meet and review

Hickory

HUD LMI TRACT DATA 1999 BY LMI PERCENTAGE									
Census tract		Population Individuals	Housing Units			Number of Low and modera Income Individuals	Number of All individuals for HUD Calcuation of LMI
