

**Comparison of State Street Ground Floor Uses - 1989, 1994 and 2014**

Prepared by the City of Madison Planning Division  
January 21, 2015

This report compares the use of ground floor spaces in the 100-600 blocks of State Street for the years 1989, 1994, and 2014. Below are summary tables and graphs, followed by detailed spreadsheets showing the data from which these graphics were created.

Data was acquired from a combination of the City of Madison Assessor’s database, City GIS database, R.L. Polk City Directories, and field observations. Three large or pending projects, including the 100 Block Foundation Project, the Overture Center (200 block), and the Hub (500 block) were not included in the calculations, and are shown as beige on the attached spreadsheets. Service oriented businesses, such as hair salons and optical shops, are categorized with retail and italicized in the attached spreadsheets.
