Administrator
U.S. Environmental Protection Agency
1200 Pennsylvania Avenue, N.W. - 1101-A
Washington, DC 20460

Dear Administrator Jackson:

On behalf of the Madison Water Utility Board, I am writing to convey our support for the efforts that are currently underway to establish a maximum contaminant level goal, maximum contaminant level, monitoring requirements, best available technology determination, and public notification language for chromium-6. We have confidence in the rigorous process used by the EPA, which is based on sound scientific judgment.

If the Madison Water Utility can be of any assistance, please do not hesitate to contact us at (608) 266-4651.

Sincerely,

Gregory Harrington
Water Utility Board President
