Subject: 53w0712 june 22 Public Hearing

Dear Public Works (the city engineer),

Please accept and file this letter as an objection as per your notice of public hearing of 6/10/2011.

We are lacking the following information regarding Rob Philip's actions against our property:

- the Federal Project number for 53w0712, and full view drawings of our property and surrounding area (Lake Edge Blvd., for example);
- explanation with timeline from Madison Common Council of the legislative numbers: 15124, 20812, 20841, 22862 and City of Monona's resolution 1012174 with City of Madison signatures. Also disclosure of any other legislation regarding 53w0712 as it affects our home and surrounding environment;
- FEMA Flood information for our property and surrounding environment;
- disclosure of 1) base map produced by contract with M.G.&E. and the city of Madison. ("These maps contain errors and do not control your property lines." [F. Thousand, Wisconsin Surveyor Review committee 8/31/10]) and 2) "Parcel Coverage" by City of Madison. This action caused discrepancies (typos) in our property. ("When such a discrepancy exists, the dimensions shown on the official survey of record are what govern." [Kathleen Falk, Dane County Executive 03/01/11.]);
- disclosure of 1983 "block map" created by City of Madison Assessor's office for staff purpose #0710-093-04.(cite M. Richards City of Madison assessor's office 3/26/10);
- legal clarification that Assessor's property information can be used to transfer property such as relocation orders and right of way;
- current status of redistricting and rezoning based on 2010 census from our legislators.

As you are only giving us 8 working days notice of your public hearing we respectfully request you postpone your hearing to allow time to include this information to this objection . Please confirm what you can do.

Respectfully,

Dennis Lynch and Marty Richards
4040 Monona Drive
Madison, 53716
