Dear Resident / Business Owner / Owner,

The City of Madison Board of Public Works will hold a public hearing on the issue of allowing construction activities, with associated noise impacts, outside the period of 7:00 AM to 7:00 PM for work on CTH M between Cross Country Road to Prairie Hill Road. The Public Hearing will be on Wednesday, June 28, 2017 at 5:30 PM at the City County Building, 210 Martin Luther King Jr. Blvd, Room 321.

Madison General Ordinance Section 24.08(3) provides the Common Council the ability to allow construction activities outside of the hours of 7:00 AM to 7:00 PM. with the passage of a resolution and a hearing before the Board of Public Works.

As you are all aware, The Wisconsin Department of Transportation plans reconstruct the roadway to an urban roadway with four (4) to six (6) vehicular travel lanes, two (2) on-road bike lanes, curb and gutter, sidewalk, multi-use path, street lighting, and a curbed, grassed median. We propose to allow the Contractor to work between the hours of 7:00 PM to 7:00 AM. The work taking place on this project cannot be constructed between the hours of 7:00 AM and 7:00 PM because:

1. Intersection work and utility installation across the roadway must be completed at night to minimize the amount of disruption to normal daily traffic and increases the likelihood of completing the project within the expedited schedule allowed.

The proposed activities beyond the hours of 7:00 AM to 7:00 PM are as follows:

1. Intersection work and public utility (sanitary sewer, water main, storm sewer) installation across the roadway.
2. Private utility installation across the roadway, see MG&E notice below and visit the project website for a location map. <http://www.cityofmadison.com/engineering/projects/county-highway-m-prairie-hill-to-cross-country>

The estimated timeframes are as follows:

1. Intersection work and public utility (sanitary sewer, water main, storm sewer) installation – 10 nights throughout construction.
2. Private utility installation – 9 nights throughout construction, July 1, 2017 – October 31, 2017.

This timeframe is approximate, and will be more clearly defined as the work areas are identified or as weather and unforeseen circumstances dictate.

If you have any questions in regards to the construction activities, please call Chris Petykowski of City Engineering at 266-267-8678.

Sincerely,

Robert F. Phillips, PE
City Engineer

Madison Gas and Electric Official Notice for Night Work on CTH M

Madison Gas and Electric (MGE) will replace gas mains and service laterals along County Highway M between Watts Road and McKee Road and also on Mid Town Rd. and McKee Rd. This work will begin in July 2017 and be completed by October, 2017.

Due to the type of work and the location of this work, MGE and its contractor will be conducting road crossing work at night.

Work will be done by MGE and KS Energy Services.

If you have questions or concerns about this project, please call or email Steve Beversdorf at (608) 252-1552, sbeversdorf@mge.com.
