

Director of Public Health or whom
it may concern,

I am writing to appeal your
decision of a Dangerous Animal
Determination of my dog Trife. My
dog was a farm dog and as is with
most farm dog's he was off a leash.
He has since moved to the city
and is leashed. The incident that
brought on the investigation I think

neither him nor I was at fault,
The other dog bit him first, it
suffered most of the damage, I don't
think the amount of damage should
decide fault. ~~The~~ The other incident
a neighbor's loose dog attacked my
dog. I don't think this was my dog's
or my fault. I think the restriction's
impose on my dog are incorrect and
misdirected. Thanks.
