

**2018 STAFF REVIEW OF PROPOSALS FOR
HOMELESS SERVICES RFP #8656-0-2017 (REVISED)**

1. Project Name/Title: **PATH Supplemental/Match**

2. Agency Name: **Tellurian, Inc.**

3. Requested Amount: \$ 20,000

4. Project Type: New Continuing

5. Services Description:

Tellurian PATH ReachOut program provides outreach services to individuals experiencing homelessness who have serious and persistent mental illnesses. The funding request is for 100% direct financial assistance such as first month rent, security deposit assistance, rental arrears, and moving expenses which will be provided to individuals who are enrolled in the PATH program. It will be used to meet the cash match requirement for the federal SAMHSA grant, the main source of funding for the outreach program.

6. Anticipated Accomplishments (Numbers/Type/Outcome):

- To serve 50 clients with financial assistance
- Exit to permanent housing: 75% (higher than the CDD target of 50%)

7. Comments:

- Tellurian outreach program has been coordinating services well with other outreach and housing programs and has demonstrated successful performance outcomes.
- Financial assistance can be accessed by those who need it the most by using the Coordinated Entry assessment and prioritization system. Distribution of the direct assistance fund described in this proposal does not have a Coordinated Entry approach. Only people who are connected to the Tellurian outreach program can receive the financial assistance.
- **This program was originally not recommended for funding. \$13,000 will help the agency meet the cash match requirement for its federal funding. The funds will be used in accordance with the Written Standards and the Coordinated Entry policies.**

8. Review Team Average Score: 76.42
