RE: ID 48142 | LNDCSM-2017-00030 – Certified Survey Map – 1339-1343 Dewey Court (Dines)

Dear Mr. Spetz;

The one-lot Certified Survey Map combining property located at 1339-1343 Dewey Court, Section 7, Township 7N, Range 10E, City of Madison, Dane County, Wisconsin, is hereby **conditionally approved**. The property is zoned TR-C4 (Traditional Residential–Consistent 4 District). The conditions of approval from the reviewing agencies to be satisfied prior to final approval and recording of the CSM are:

Please contact Tim Troester of the City Engineering Division at 267-1995 if you have questions regarding the following two (2) items:

1. Prior to approval, the owner or owner's representative shall obtain a permit to plug each existing sanitary sewer lateral that serves a building which is proposed for demolition. For each lateral to be plugged the owner shall complete a sewer lateral plugging application and pay the applicable permit fees.
2. A minimum of two (2) working days prior to requesting City Engineering signoff on the CSM the applicant shall contact Tim Troester at 261-1995 (ttroester@cityofmadison.com) or Brenda Stanley at 261-9127 (bstanley@cityofmadison.com) to obtain the final stormwater utility charges that are due and payable prior to sub-division of the properties. The stormwater utility charges (as all utility charges) are due for the previous months of service. All charges shall be cleared prior to the land division (and subsequent obsolesces of the existing parcel).

Please contact Jeff Quamme of the City Engineering Division–Mapping Section at 266-4097 if you have questions regarding the following six (6) items:

3. The CSM lies in the SW 1/4 of the NW 1/4, not the NW 1/4 of the NW 1/4. Correct this on the headers and in the legal description.
4. Provide the 66-foot recorded as distances on the side lot lines.
5. Correct the bearing of the random line in the legal description to 14 seconds. Correct the next to last course bearing in the legal description to match the map.

6. Wisconsin Administrative Code A-E 7.08 identifies when Public Land System (PLS) tie sheets must be filed with the Dane County Surveyor's office. The developer's surveyor and/or applicant must submit copies of required tie sheets or monument condition reports for all monuments, including center of sections of record, used in this survey, to Jeff Quamme, City Engineering Division (jrquamme@cityofmadison.com). If a new tie sheet is not required under A-E 7.08, City Engineering requests a copy of the latest tie sheet on record with Dane County Surveyor's office and shall be attached to a signed and sealed monument condition report. The applicant shall identify monument types on all PLS corners included on the Plat or CSM. Note: Land tie to two PLS corners is required.
7. This pending Certified Survey Map application shall be completed and recorded with the Dane County Register of Deeds (ROD) prior to issuance of any building permits for new construction. When the recorded CSM image is available from the ROD, the Assessor's Office can then create the new Address-Parcel-Owner (APO) data in the parcel database so that the permitting system can upload this data and permit issuance made available for this new land record.
8. The applicant shall submit to Jeff Quamme, prior to Engineering sign-off of the subject CSM, one (1) digital CADD drawing and one (1) signed copy of the final CSM to the Mapping/GIS Section of the Engineering Division either as hard copy or Adobe PDF format. The digital CADD file shall be submitted in the WISDOT County Coordinate System, Dane County Zone datum in either Auto CAD Version compatible with MicroStation Version V8i, MicroStation Version V8i or older or Universal DXF Formats. The digital CADD file(s) shall contain the minimum of the items stated below, each on a separate layer name/level number. All line work shall be void of gaps and overlaps that would cause any parcel, street or easement to not properly close. All line work orientation and geometrics shall match the dimensioning as labeled on the final recorded plat: right of way lines (public and private); lot lines; lot numbers; lot/plat dimensions; street names, and; easement lines (i.e. street, sanitary, storm (including wetland & floodplain boundaries) water, pedestrian/bike/walkway, or any public and/or private interest easement except local service for Cable TV, gas, electric and fiber optics).

*This transmittal is a separate requirement than the required submittals to Engineering Streets Section for design purposes.

*The Developer/Surveyor shall submit new updated CSM, electronic data and a written notification to Engineering Mapping for any changes to the plat which occur subsequent to any original submittal of data and prior to final sign off.

Please contact Heidi Radlinger of the Office of Real Estate Services at 266-6558 if you have any questions regarding the following three (3) items:

9. Pursuant to MGO Section 16.23(5)(g)(4), the owner shall furnish updated title to Heidi Radlinger in City's Office of Real Estate Services (hradlinger@cityofmadison.com), as well as the survey firm preparing the proposed CSM. The report shall search the period subsequent to the date of the initial title commitment (June 17, 2017) submitted with the CSM application and include all associated documents that have been recorded since the initial title report. The title format shall be a 60-year report. The surveyor shall update the CSM with the most recent information reported in the title update.

10. The owner shall email the document number of the recorded CSM to Heidi Radlinger in the City's Office of Real Estate Services as soon as the recording information is available.
11. Include a complete and accurate legal description of the lands that are to be included in the proposed CSM. The legal description shall be reconciled with the legal description of said lands in record title.

Specific questions regarding the comments or conditions contained in this letter should be directed to the commenting agency.

A resolution approving the CSM and authorizing the City to sign it and any other documents related to the proposed land division was approved by the Common Council on September 5, 2017.

As soon as the comments and conditions have been satisfied as verified with a completed affidavit form (attached), the original along with the revised Certified Survey Map, with all signatures and approvals from the reviewing agencies, shall be brought to this office for final signoff. You or your client may then record the certified survey at the Dane County Register of Deeds. For information on recording procedures and fees, contact the Register of Deeds at 266-4141.

Prior to City Engineering final sign-off by the main office of the CSM, the final CSM shall be submitted to the Engineering Division Surveyor/ Land Records Coordinator for final technical review and approval. This submittal must occur a minimum of two working days prior to final Engineering Division signoff. E-mail submittal of the final CSM in PDF form is preferred. Transmit to jrquamme@cityofmadison.com.

Any appeal from this action, including the conditions of approval, must be filed with the Circuit Court within 30 days from the date of this letter. **The approval of this CSM shall be null and void if not recorded in twelve (12) months from the date of the approving resolution or this letter, whichever is later.**

If you have any questions or if may be of any further assistance, please do not hesitate to contact my office at 261-9632.

Sincerely,

Timothy M. Parks
Planner
