Dear members of the Transportation Committee,

I have been a huge supporter of the BRT.

I also recognize that keeping a hardware store on the south-side is very important. I believe doing so is only second to maintaining a grocery store in the area. If you have a older house or run a small business in the area, there is no other place you rely on more than the two. I often find myself going there two or three time within a few hours when I am in the middle of a project.

I recognize that losing access to parking would be an existential threat to this business that serves all of the south side.

Please do not make "the perfect the enemy of the good" and undermine support for BRT that has been growing over the past year due to its initial success. Keeping street parking on the west side of the twelve hundred block of South Park Street is a supportable, reasonable, compromise.

Thank you for your service,

Lindsey Lee
