

MADISON PARKS

Sustainable Madison Committee Sustainability and Madison Parks

Parks' Sustainability Goal:

Well-planned, systematic management and maintenance of natural areas, trees and plantings to support habitat and climate resilience.

Reduce the frequency with which all city lawn acreage (including roadsides) is mowed.

Incorporate prairie plants city-owned acreage that currently is mowed and not used for public recreation.

Planning natural areas

Pollinator Habitat

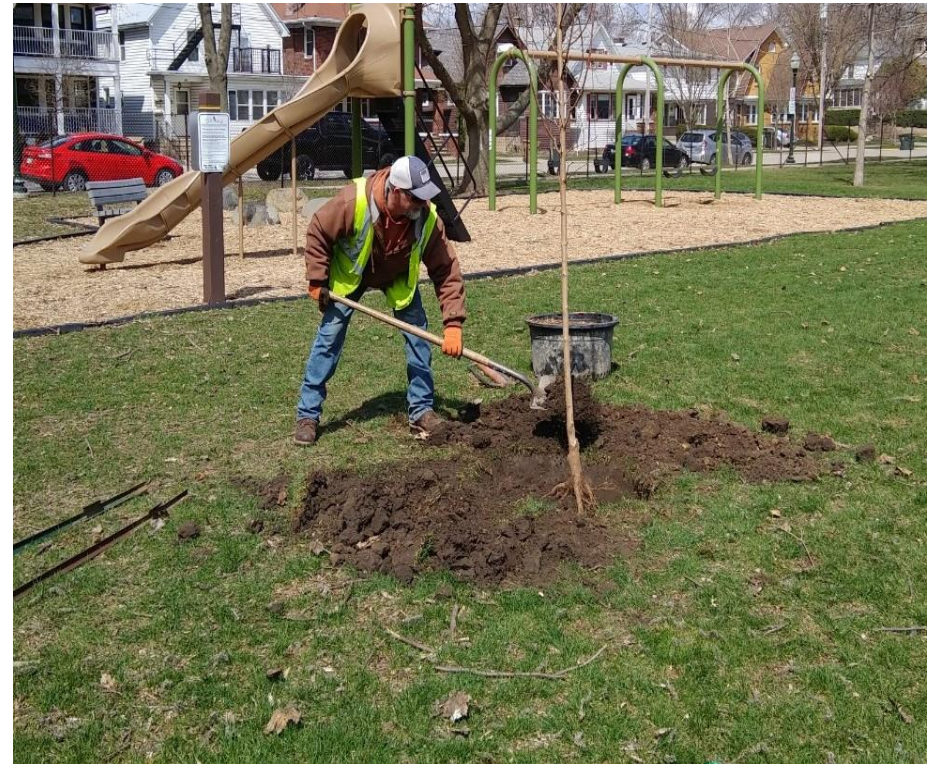

Increase acreage of organically maintained turf

Turfco.com

Urban Forest

Reducing Carbon Emissions

Golf Enterprise Program

Native seed collection at Odana Hills Golf Course
