Urban Design Commission  
210 Martin Luther King, Jr. Blvd  
Madison, WI 53703

Urban Design Commission,

I'm writing as the developer of University Crossing and our real estate ownership interests in University Crossing in favor of approval of agenda item 52698. We put forward the original GDP(SIP) that UW Health seeks to amend. We are fully supportive of their request. Since the application was sent in, UW Health has shared with me the reason to believe the temporary parking will indeed be temporary and in the mean time they have pledged to be good stewards of future parking of those who currently park there. They will take steps to minimize on street parking and be good stewards of the farmers' market, the land, and watershed. They are clearly long-term investors in University Crossing and the surrounding area, and I encourage you to grant this temporary extension.

Sincerely,

Paul Lenhart  
University Crossing
