Hello,

I am writing to urge you to approve the permanent zoning changes requested by Occupy Madison for 1901 Aberg Ave.

Occupy Madison has created and implemented an innovative idea to help provide basic necessities to Madison's most vulnerable and underserved residents.

The project gained widespread support, many people within our community donated funds and labor to help build the temporary shelters.

Being able to transition to more permanent structures and have access to resources such as counseling will help create a viable model for other people who are struggling with homelessness.

As the number of homeless people in Madison continues to grow, our City agencies should do everything within their power to facilitate any practical and workable solutions to this devastating problem.

Sincerely,
Judy Robinson

I wish to register my support for Occupy Madison's proposal for a permanent tiny home development at 1901 Aberg Avenue, Item #4 on today's Urban Design Commission meeting. Like the existing tiny home community on Third Street, this development will give currently homeless people a chance to attain stability and dignity through their own efforts. Because of Occupy Madison's efforts, Madison is a leader and innovator in creating this response to homelessness, and this new development will give them a chance to build on their success so far.

I am writing to support the approval of the proposed permanent Tiny Homes & Gardens at 1901 Aberg Avenue.

I live a few blocks away and have noticed no negative effects of the project. The appearance of the property is improved and I am happy that people are being provided affordable housing.

I am writing in support of the proposed tiny house development at Aberg and Huxley. I live nearby and I have been glad to see housing and facilities for living made available on the formerly unused sight. I would welcome a tiny house village. I have had experience visiting the site on 3rd and Johnson and I think that it is a benefit to the neighborhood.

Thanks for your consideration of this very good idea,

Virginia
