PROJECT NARRATIVE :

Project scope entails converting an existing boarding house, previously operated as a youth hostel, to a transitional housing congregate living facility with supportive services provided. So zoning use category changes from 'hotel' to 'mission house'. Mission house use requires a conditional use review and approval.

Physically, both the existing and the proposed use are congregate living for under 16 persons; existing layout to remain unchained except for corrections to egress and provision of accessible entrance, (1) guest room and (1) bathroom, plus access to other common facilities, all located on the 1st Floor.

Developer & Operators will be Urban Triage, Inc., Facility to be licensed by WI Dept. of Children & Families.
