Hi, Aidan. Please forward the email only some TC members received to all TC members, and save it under item #1 for the next TC meeting.

Thanks,
Ann

Good Morning

This is Alder McKinney. I would like to schedule a viewing of the intended bike path that you refer to. I am not a biker but would like to hear more of your perspective. Was your email sent to all members of the commission?

Alder Harrington McKinney

You don't often get email from lynn.hummel@aol.com. [Learn why this is important](#)

Caution: This email was sent from an external source. Avoid unknown links and attachments.

Dear Committee Members,

If Robbie Webber tries to revive the NS bike path in the Sauk Creek Greenway please remind her;

1. That it does connect anything to anything.
2. That there are good existing bikeways all around the Greenway. I know, I use those bikeways on my bike all the time. Why in a time of budget crisis would you build something that is not needed, goes nowhere, connects nothing, and destroys a great, rare city ecosystem?

3. Has anyone actually been to the Greenway? I would love to show you this place with very tall trees so that you can make an better informed decision on the bikeway. Please contact me via email for a tour.

4. People living close to the Greenway, many of them bicyclists, oppose the bike path because they really value the forest in the Greenway and the plant and animal communities within that woods.

Thank you
