Dear TC,

I am writing in support of the TWLTL option and in opposition to the four-lane option. A four-lane option for this section of Milwaukee Street would only increase speeding. This is a residential area, and community safety should be our priority. The TWLTL design would accommodate the anticipated increase in vehicle traffic without jeopardizing the safety of our community.

I primarily travel using public transportation and cross Milwaukee Street on a daily basis to catch the bus. My concern with both options is that there does not appear to be sufficient infrastructure to help pedestrians safely cross the street.

Thank you for including a separate bike path. I frequently see cyclists on the road and worry about their safety, especially at night.

Sincerely,
Michelle Koenig
