Re: Buses on Jenifer Street vs. Williamson Street

Dear Ms. Stammer,

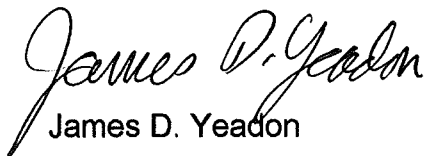

Enclosed are the sheets from our survey on this question. They show that 380 people we asked about the buses said they'd rather have them on Jenifer Street over Williamson Street.

This survey was done in a few weeks before the August 31<sup>st</sup> meeting on the idea by the local Alderman. Ald. Marsha Rummel was given a copy at that meeting. We did not even try to get it updated after the meeting.

When I did the survey, only one person told me she'd rather have them on Jenifer Street! (She lived there at the time.) I went up and down the street asking business owners, riders, drivers, etc., what they thought about the issue. Most people were against keeping the buses on Willy Street and were very happy to sign our survey. A few didn't care where the buses went. The business owners were adamantly against the idea of the buses staying on Willy Street! (I did not stop at Mother Fools during this time, as it was temporarily out of business...)

Thought you should see this as I will not be at your meeting about the issue on September 26<sup>th</sup> at 7:00. I hope you keep it in mind during your consideration.

Thank you!

  
James D. Yeadon

**KEEP THE BUSES ON JENIFER STREET!**

Metro Transit will determine if the buses are going to go back to using Jenifer Street or continue to use Williamson Street. We are against keeping the buses on Williamson Street! Move them back to Jenifer Street, please!

The buses are taking up valuable parking spots on Williamson Street. This makes it more difficult for customers, delivery vehicles and service vehicles. It is also difficult for traffic in the mornings and afternoons when Williamson has two lanes open for traffic. Adding the buses makes it very difficult for businesses to keep open!

**KEEP THE BUSES ON JENIFER STREET!**

Metro Transit will determine if the buses are going to go back to using Jenifer Street or continue to use Williamson Street. We are against keeping the buses on Williamson Street! Move them back to Jenifer Street, please!

The buses are taking up valuable parking spots on Williamson Street. This makes it more difficult for customers, delivery vehicles and service vehicles. It is also difficult for traffic in the mornings and afternoons when Williamson has two lanes open for traffic. Adding the buses makes it very difficult for businesses to keep open!
