Hi Jim,

Badger UAAP LLC located at 7309 West Towne Way would like to request an extension of our alcohol license. We are currently delayed by at least a month because of a shortage of a particular attraction crew. Urban Air has three different crews that come through your park and build out the attractions. The second crew called the soft-play crews are currently at other parks and are unable to come to our park until they are finished at the other parks.

Thank you very much
