Subject: jenifer st trees
Date: Tuesday, February 02, 2016 12:18:24 PM

Please reconsider taking down as many trees on Jenifer as you have planned. They present such quality of life, shade and smell and breeze and beauty, It takes away such great views when you eliminate these canopies...they will never appear there again and we and our future generations will have missed one of the joys of nature and quality of life. Please please reconsider...Thanks Dana Schreiber

Ps please pass on to Rob Phillips, the email I was given for him is not going through...thank you
