I met with the applicant on site. He explained the concept of the Restaurant as well as the patio. He indicated to me that he would not be seeking an entertainment license and would only have acoustic music. In regards to the patio and fencing. In general I do not object as it would make for a more comfortable space for people on the patio. It would also create access control to the property which would be a benefit. The location in relationship to the side walk and the esthetics related to design would be a factor that I would defer to other city agencies and to the Alder and neighborhood.
