e-mail wmoreau@xes-inc.com		e-mail preston@newcombbuilds.com

1. The rule being petitioned reads as follows: (Cite the specific rule number and language. Also, indicate the nonconforming conditions for your project.)

MGO 34.604 EMERGENCY AND STANDBY POWER SYSTEMS - (2) IFC section 604.2.14.1.1, the exception for the use of pipeline natural gas as the fuel supply for the generator is not included as part of this code

2. The rule being petitioned cannot be entirely satisfied because:

Natural gas feeding a emergency power system is not allowed per MGO 34.604. The building owner would prefer that the generator be natural gas as it also provides standby power for their network room.

3. The following alternatives and supporting information are proposed as a means of providing an equivalent degree of health, safety, and welfare as addressed by the rule:

Generator would be fed with its own dedicated natural gas line, labeled every ten feet, provided dedicated shut offs / labeling for each line, there would not be any ties in to the line that serves the generator.

Note: Please attach any pictures, plans, or required position statements.

VERIFICATION BY OWNER - PETITION IS VALID ONLY IF NOTARIZED AND ACCOMPANIED BY A REVIEW FEE AND ANY REQUIRED POSITION STATEMENTS.

Note: Petitioner must be the owner of the building. Tenants, agents, contractors, attorneys, etc. may not sign the petition unless a Power of Attorney is submitted with the Petition for Variance Application.

Robert Scidmore
Print name of owner

being duly sworn, I state as petitioner that I have read the foregoing petition, that I believe it to be true, and I have significant ownership rights in the subject building or project.
