 Property Owner (if not applicant): ERIK MINTON & DR. JOHN BONSIETT-YEAL
 Street Address: 21 N. BUTLER ST. City/State: MADISON Zip: 53703

4. Project Information:

Provide a brief description of the project and all proposed uses of the site: 5 STORY MIXED USE DEVELOPMENT w/ 603 PARKING STALLS, 50 UNITS OF APARTMENTS AND 7,707 S.F. COMMERCIAL USE.
 Development Schedule: Commencement FALL 2013 Completion SUMMER 2014

16-17

5. Required Submittal Information

All Land Use applications are required to include the following:

Project Plans including:*

- Site Plans (fully dimensioned plans depicting project details including all lot lines and property setbacks to buildings; demolished/proposed/altered buildings; parking stalls, driveways, sidewalks, location of existing/proposed signage; HVAC/Utility location and screening details; useable open space; and other physical improvements on a property)
- Grading and Utility Plans (existing and proposed)
- Landscape Plan (including planting schedule depicting species name and planting size)
- Building Elevation Drawings (fully dimensioned drawings for all building sides, labeling primary exterior materials)
- Floor Plans (fully dimensioned plans including interior wall and room location)

Provide collated project plan sets as follows:

- **Seven (7) copies** of a full-sized plan set drawn to a scale of 1 inch = 20 feet (folded or rolled and stapled)
- **Twenty Five (25) copies** of the plan set reduced to fit onto 11 X 17-inch paper (folded and stapled)
- **One (1) copy** of the plan set reduced to fit onto 8 ½ X 11-inch paper

* For projects requiring review by the **Urban Design Commission**, provide **Fourteen (14) additional 11x17 copies** of the plan set. In addition to the above information, all plan sets should also include: 1) Colored elevation drawings with shadow lines and a list of exterior building materials/colors; 2) Existing/proposed lighting with photometric plan & fixture cutsheet; and 3) Contextual site plan information including photographs and layout of adjacent buildings and structures. The applicant shall bring samples of exterior building materials and color scheme to the Urban Design Commission meeting.

Letter of Intent: Provide one (1) Copy per Plan Set describing this application in detail including, but not limited to:

- | | | |
|---|---|--|
| • Project Team | • Building Square Footage | • Value of Land |
| • Existing Conditions | • Number of Dwelling Units | • Estimated Project Cost |
| • Project Schedule | • Auto and Bike Parking Stalls | • Number of Construction & Full-Time Equivalent Jobs Created |
| • Proposed Uses (and ft ² of each) | • Lot Coverage & Usable Open Space Calculations | • Public Subsidy Requested |
| • Hours of Operation | | |

Filing Fee: Refer to the Land Use Application Information & Fee Schedule. Make checks payable to: *City Treasurer*.

Electronic Submittal: All applicants are required to submit copies of all items submitted in hard copy with their application as Adobe Acrobat PDF files on a non-returnable CD to be included with their application materials, or by e-mail to pcapplications@cityofmadison.com.

Additional Information may be required, depending on application. Refer to the Supplemental Submittal Requirements.

6. Applicant Declarations

Pre-application Notification: The Zoning Code requires that the applicant notify the district alder and any nearby neighborhood and business associations in writing no later than 30 days prior to FILING this request. List the alderperson, neighborhood association(s), and business association(s) AND the dates you sent the notices:

→ If a waiver has been granted to this requirement; please attach any correspondence to this effect to this form.

Pre-application Meeting with Staff: Prior to preparation of this application, the applicant is required to discuss the proposed development and review process with Zoning and Planning Division staff; note staff persons and date.

Planning Staff: _____ Date: _____ Zoning Staff: _____ Date: _____

The applicant attests that this form is accurately completed and all required materials are submitted:

STATEMENT OF RATIONALE (MARKET)

Submitting for PD zoning for this site will allow us to develop a mix unit that also limits the commercial uses. Housing development has been very successful, but tenants have been requesting larger units. By developing this site with larger one and two bedroom units, it will complement the mix we have. This area is very attractive because of the good access to the Central Business District (CBD) and State Street area. Our marketing studies and all housing studies show the need for higher density in an area this close to the Square.

All housing projects in the downtown area have 100% occupancy and are rented 6 to 9 months in advance. We have talked to all of the downtown management groups and have obtained the same data. The downtown area has no vacancies. Some management groups are receiving up to 30 calls a week, even without advertising. This is across the board - market apartments and student units. Apartment buildings on the west side of Madison have a vacancy rate of 11%, while the vacancy rate on the east side of Madison is 8½%.

Currently there is a high demand for housing closer to the CBD, which make this an ideal time to develop this site. There is absolutely no doubt that the market is there. All reports written in the last 10 years, along with all the evidence in renting trends bears this out. The number of apartment units is clearly less than the current demand. And that demand is obviously growing.

FEASABILITY

We have surveyed the apartment market with respect to cost also. We surveyed apartment projects with at least 30 units. We have placed these into two categories. The first is older, well-maintained units. The second are the newer or unique apartments. We priced studios through 4 bedroom apartments. This is the range we found: studio; \$450 - \$725, one bedroom; \$725 - \$1,225, two bedroom; \$1,275 - \$1,850, three bedroom; \$1,500 - \$2,275. Our units will be priced near the high-end and very similar to Butler Plaza.

PROJECT DESCRIPTION

The proposed project occupies approximately .38 acre (16,451 s.f.) on one lot at 425 West Washington Avenue. The project demolishes 1 existing one-story commercial building. The new building will have two levels of parking with 64 stalls, 5 floors of residential apartments totaling 50 units, and two commercial spaces, one for the current Optometrist Office and one for a Capitol Fitness Annex. The units will vary from a loft one bedroom unit to two-bedroom two bath units. We will have 36 one-bedroom units (465 to 670 s.f.), 14 two-bedroom units (680 to 890 s.f.), With 50 units and 64 bedrooms, we average 1.28 bedrooms per apartment.

Each floor will have a laundry room. The two-bedroom units will have two baths. All units will have access to a private exterior space, full size kitchens, upgraded finishes and high efficiency heat pumps for HVAC. This project will total 7,350 square feet commercial space, 43,689 square feet for residential, and 26,032 square feet for parking.

POTENTIAL IMPACTS (AMENITIES)

Within a 4-block area there are restaurants, coffee shops, retail businesses, services (e.g., dry cleaning, travel agencies, medical), churches, banks, and recreation areas that will serve these tenants. Access to the King Street and State Street areas is only 2 blocks away. We feel it is important to supply more housing as close to the center of this large engine that calls for more density.

Our site is close to the city bus route for easy access anywhere in the city. Also, we are close to two bike paths that are widely used. These are great transportation amenities for the tenants.

This type of development will also be an easy fit for all city services and utilities, not adding to the cost for the city. With a predominantly adult population, there will be no significant increase for local public schools. With new construction, there will be very little demand for city services. And with on-site management and security, there should be very little need for police calls. This project will, however, add \$62,000 to the school system, \$38,000 to the city, and \$30,000 to Dane County.

NEIGHBORHOOD CONTEXT (DENSITY)

The proposed development takes into consideration the character of the neighborhood as well as the use. All architectural features draw from the neighborhood as well as current plans and zoning

With the building setting 10 feet off West Washington Avenue, we provide a buffer from the street for the apartments on the first floor. The first floor grade is a minimum 4 feet above the sidewalk, which adds to the safety and privacy for the apartments. As with Butler Plaza, we will have planters all around this building to develop a very friendly pedestrian feel. We are also going to redo the sidewalk, terrace and curb for the entire length of the block. We can improve the grade of the terrace and eliminate some of the utility poles.

Our site is two blocks off the Square and just off West Washington Avenue, a major artery, which contains a number of larger buildings. It is reasonable to have higher density and taller structures with the number of amenities and CBD facilities so close by.

OPEN SPACE

The open space on the site will be predominantly private patios and terraces with concrete finishes and planters. Built-in planters will be provided for tenant use on the rooftop terrace area as well. Side and rear yards will serve as private terraces for the units on the first floor. The south side plaza will have bike parking for visitors. The street terrace will have grass and trees that will be maintained and improved.

Overall, the proposed project provides approximately 1,820 square feet of open space on the first floor terraces, 1,000 square feet on private balconies, and an additional 1,800 square feet of rooftop terraces. All the apartments will have exterior space that will allow for plants.

PARKING AND ACCESS

We are constructing as many underground parking spaces, as this site will allow. We feel the

scale of this project will be better served in the long run with as many parking stalls as we can get in excess of 1 to 1. We have a surplus at Butler Plaza that will provide us with an additional 25 stalls. This will give us a ratio of 1.33 stalls per unit, one stall per bedroom.

MANAGEMENT

Butler Plaza Properties will provide full-time professional management and maintenance services, including an onsite resident manager and regular daily office hours, on the premises. Management will include all aspects of renting, maintenance, and resident relations, including all snow removal and repairs. The building will be served by 24-hour emergency maintenance services. Fire alarms and elevator service is monitored 24 hours per day. Management includes all operations of the parking garage including, but not limited to, overhead door maintenance, lighting, carbon monoxide and exhaust maintenance, lighting, and cleaning. Parking management includes daily and regular attendance to approved users and monitoring of illegal/unauthorized users. Video surveillance and key fob entry for entry doors and garage entry will be state of the art.

Parking will serve all residents requesting parking. Parking will service approximately 5 optometry staff and 4-5 customers of Dr. Bonsett-Veal. These spaces will have special signage noticing reserved status for Dr. Bonsett-Veal's optometry office, weekdays from 8:00 a.m. to 6:00 p.m. Three stalls will be reserved 5 a.m. to 11 p.m. for Capital Fitness staff. These stalls will be available for overflow, emergency use to residents, should illegal cars make access to normal stalls impossible. Illegal vehicles will be ticketed and/or towed, based on standard monitoring policies of Butler Plaza Properties and city ordinances.

Allowed resident rooftop usage hours are posted and noticed in lease addendum per historically ideal operating hours. This notice includes operating hours, expectations of behavior, clean up, and acceptable noise levels.

Capital Fitness LLC has operated fitness facilities and salon/spa services in downtown Madison for 14 years. Capital Fitness provides a full array of services to more than 2,700 members and has 800-900 daily users of the primary 35,000 foot facility. It employs a full-time staff of more than 35 and 40-50 part-time staff and instructors. The business employs highly educated and experienced managers, trainers, sales agents, physical therapists, acupuncturists, professional stylists, masseurs, nail technicians, janitors, maintenance staff, and desk staff, with a payroll of nearly \$2,000,000 annually.

The Express location at 425 West Washington Avenue will have 3-4 staff onsite during most operating hours of 5 a.m. to 11 p.m. This facility will be staffed 100% of the time, unlike most "express" facilities. This facility will allow a full array of cardio and weight equipment, along with access to hourly, professional trainers. This facility will provide a convenient facility "top of the line" full line of gym equipment, shower, locker and changing space. The gym will be served with extensive exterior and interior bike stalls, moped stalls, and will be readily accessible to the neighborhood. Membership at this gym will allow convenience at the same time as access to the full array of services and classes offered at our primary business location of 302 East Washington Avenue.

Dr. Bonsett-Veal's Vision Source currently employs 5 full-time staff. Expansion of Dr. Bonsett-

Veal's facility will allow the addition of one doctor and the addition of 2-3 full-time support staff. The new facility will allow Dr. Bonsett-Veal to continue to bring state of the art eye care and retail services to downtown residents and workers along with allowing continued growth of his business of nearly 30 years in downtown Madison.

BIKE PARKING

Bicycle racks will be provided for the tenants within a secured area. A minimum of 45 stalls will be provided within the parking structure. An additional 10 stalls will be provided in the plaza for visitors.

CURRENT ZONING

The existing zoning is DR2. Below is a comparison of what is provided to what is required.

	actual lot	required
Lot Area:	16,451 s.f.	
Yard Requirement:	10 front & 5 side 20 rear	10 front & 5 side 33 rear
Useable Open Space:	4,620 s.f.	7,200 s.f.
Off Street Parking:	1.0 per unit	0 per unit
Bike stalls	76	50

GENERAL DESIGN STANDARDS

Architectural Design

The residential building will have elements and materials to blend with and add significant detail to the neighborhood. The entire exterior will be masonry with larger units on the first floor. Contrasting units will be used for horizontal banding treatment at the second floor as well as the sixth. All living rooms will have larger glass areas with balconies.

We will use durable quality products, which will add to the longevity of our structure. The elevated first floor is not only functional for the parking, but also gives the pedestrians good separation from the congested vehicular traffic at the corner.

The features within the building include higher ceilings in the living room, a central heat pump HVAC system, larger square footage within the units, cable, cad 5 phone lines, higher level finishes, ceramic tile for bath and kitchen, commercial grade hardware, and laundry in each unit.

Utilities

All utility service within the proposed development will be provided underground. Water, sanitary sewer, storm sewer, telephone, and cable currently run along West Washington Avenue.

Storm Drainage

All storm water for the structures will drain to floor drains including the interior garage area. We will have a trench drain at the entrance to the parking area, which will limit the amount of water entering the parking garage.

Site Lighting

The design of all site lighting will be coordinated to complement the site design and architectural character of the building.

Site lighting will include wall mount lighting at the parking entrance, wall mount lighting at the main entrance, and wall mount lighting at the first floor deck/patio.

All fixtures will be positioned with care taken to direct light away from windows and street traffic.

Signs

The building will be identified with street numbers on the face of the structure, along with raised letters on the canopy for the building name.

Informational signage will be located on the interior of the entrance to the building. Appropriate site signage will be used for vehicle access from North Butler Street, including stop sign and drive lanes.

Any signage will be as approved by the Urban Design Commission and/or Planning Staff.

Service Area

Trash collection will utilize space within the parking structure adjacent to the service bay. We will have two trash containers, one for garbage and one for recyclables.

We will have a 10' by 35' service bay for deliveries and move-ins next to the driveway off West Washington Avenue.

Landscaping

Open space areas will be planted with groundcover, shrubs, and trees to complement the site design, architectural character, and neighborhood. All units will have access to their own area for planting as well.

The landscape for this project will incorporate a variety of types and sizes of plant material, providing seasonal interest. Annual floral displays will be used in pedestrian areas and building entrances, including **main planters at the entry**.

Walkways

All walkways will be constructed of concrete to match existing sidewalks. The existing sidewalk will be replaced along the entire block. We will rework the grade of the terrace and also replace the existing concrete curb.

Rooftop terraces will be constructed with concrete pavers and metal pipe railings.
